To whom it may concern,

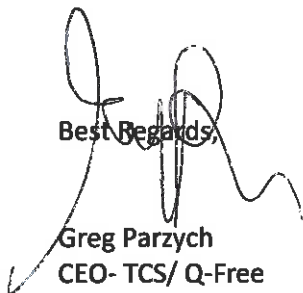

Our firm has worked with Stylesoft for a number of years on various development projects. We have always has quality software and code delivered on time and with very few operational issues.

The development staff has always been very responsive, courteous and timely. Anytime we have had an issue, it was dealt with promptly and never impacted the project schedules.

I would not hesitate to recommend Stylesoft for any type of development project and continue to use them now for projects that we are active on.

Please do not hesitate to contact me if you have any additional questions,

Best Regards,
